

Autumn term 2021

Year 1

English

We will be reading and exploring traditional tales, and stories with rhyme and repetition.

Additionally, we will be learning the skills needed to write a recount and looking at seasonal weather poems.

Geography

We will be learning about the changes that occur in seasonal weather around the UK and making observations about the weather.

Science

We will be learning about materials and their properties and observing seasonal change.

History

We will be looking at the history of toys.

Maths

This term we will be using addition and subtraction to refine our fluency levels. We will be working on number bond recall and using number bonds for problem solving. We will be using the whole-part model to help us.

Computing

We will be learning about the technology in our every day lives and exploring data.

D&T

We will be creating a product using levers and sliders.

Bratton Passport at home

Look up at the stars on a clear night

Skim a stone

Climb a huge hill

PSHE

We will be learning about families and friendships, including how to play together and respect.

We will be learning how we respect each other's privacy and how we have relationships with different people in our lives, e.g. parents, siblings, friends etc.

Art

We will be learning different shading and sketching skills using charcoal and wax crayons.

R.E

We will be learning about different creation stories and about Christmas.

Music

We will be exploring high and low sounds and notes.

PE

We will be learning a range of different fundamental skills including gymnastics and dance.
