

Enriching Lives Everyday

English

Maths

Children will continue to develop their mathematical knowledge focusing on calculations involving mass, capacity as we will revisit fractions

Science - Plants

Children will be able to identify different types of plants, the parts of plants, how they reproduce and how they benefit the environment.

Religious Education - Is life a journey?

Children will look at how different religions see life as a journey from birth to death and how they mark major points in life in their religions.

Year 3 Summer 1

'Enriching Lives' by connecting learning about Europe and the UK

Hook : Growing our own plants
Showcase : Reading English Instructions

Physical Education (PE)

Athletics and Rounders.

Geography - Europe and the UK

Children will identify and compare key cities and geographical features in the UK and Europe. During this topic, they will look at physical and human features in Europe.

PHSE -Healthy lifestyle, healthy habits

Children will learn which factors effect healthy lifestyles and healthy habits. Children will investigate how we can manage these factors.

Modern Foreign Language (French) - Animals

We will learn the key vocabulary related to animals.

Music -Bringing Us Together

Children will be learning to perform a number of pop tunes by playing a range of instruments and singing as well as discussing rhythm, tonality & structure.

Art- Telling Stories through drawing and making

Children will create their own character in clay to fit into a background they draw based on a text.
